Materials

- Color of your choice in Size 4 Worsted Weight Yarn
- 5 mm Crochet Hook

Abbreviations

- ch - chain
- hdc - half double crochet
- sl st - slip stitch

Notes:

Adjust the length by adding or reducing the number of rows to fit your preference. The number of rows you need may also vary based on tension. You can increase or decrease the thickness of the headband by adding or removing chains at the beginning and adjusting the number of stitches for each row accordingly. The bow is made with the same instructions as the headband and can be adjusted to desired size in the same manner. This pattern is based off the measurements of my baby's head (about 16.5 inches around) and will most likely require adjustments (increasing or decreasing the number of rows) to achieve the desired fit. A size chart is included at the end of the pattern to provide a general estimate of the number of rows that may be needed.

Headband

Start: Chain 7.

Row 1: Hdc in the second chain from hook and in each of the next 5 stitches. (6)

Rows 2-44: Chain 1 and turn. Hdc in each stitch. (6)

Sl st the first and last rows together to form a loop.
Fasten off and weave in any loose ends using a yarn needle. Turn the headband inside out.

each of the next 5 stitches. (6)

Rows 2-26: Chain 1 and turn. Hdc in each stitch. (6)

Sl st the first and last rows together to form a loop.

Fasten off and weave in any loose ends using a yarn needle. Turn the bow inside out.

**Assembly**

Place headband and bow with seams facing forward. Line up seams and start wrapping (around both the bow and the headband) with a single strand of yarn. Wrap center to desired thickness, keeping plenty of tension on the yarn. Make sure to leave a short piece of yarn (at least an inch) poking out at the beginning (on the inside of the headband) to tie the end piece to. Once it is wrapped and tied, just weave in the ends, and enjoy your completed headband!

Size Chart

Here is a size estimate chart for baby crochet headbands. Keep in mind that these are general guidelines, and actual sizes may vary depending on the yarn weight and tension used. These measurements are approximate, so it's advisable to measure against baby's head for a more accurate fit. Adjust the pattern accordingly and consider the stretchiness of the stitch and elasticity of the yarn for a comfortable and secure fit.
